

"SW" SERIES

"SW" are SAFE top selling compressor with a wide range of suction pressures.

These compressors are suitable for CNG stations with high flow rates and, in their most powerful configurations, are used for applications such as bus filling stations and mother stations for **trailer refilling**.

"SW" compressors are used also for **Oil & Gas applications** such as pipeline compression and well gas reinjection and gathering. Available in either electrical motor or gas engine configurations.

MAIN FEATURES:

- Suction pressure: 0,5 ÷ 70 bar
- Discharge pressure: 250 bar
- Installed power: 75 ÷ 400 kW
- N° cylinders / N° stages: 3 / 2, 3, 4
- Body cylinders: double effect (DE)
- Blow-down system
- Air water cooling system
- Driven by electric motor or gas engine
- High flow rate
- Minimized vibrations
